

Environmental Management System

Environmental Policy Statement

Sudlows are committed to ensuring sound environmental management practices, continuous improvement programmes and the reporting of our direct and indirect environmental impacts; marking our contribution to improving the environment in which we live and work.

In support of this the Company will:

- Establish and maintain an appropriate environmental management system which conforms to the requirements of the ISO 14001 standards and provides a framework for setting and reviewing our environmental control measures and targets and objectives.
- Comply with all relevant legislation, standards and codes of practice and with other requirements to which the Company subscribes which relate to our environmental aspects.
- Provide services in such a way to limit or avoid adverse impacts on the environment
- Strive to continually improve environmental performance
- Ensure that environmental management is an integral function of the business
- Commit to the prevention of pollution, emissions and waste generated by our business activities and from suppliers.
- Implement energy efficient measures across our company offices/sites
- Drive the management of waste away from disposal and towards recovery and recycling
- Protect our natural heritage and biodiversity
- Ensure sufficient resources are available to implement sound environmental management practices
- Provide appropriate information, instruction and training for all employees and any person working for or on behalf of the company in environmental management and awareness
- Ensure that this environmental policy is made available to all persons working for, or on behalf of Sudlows and any other interested parties on request.

The Directors will set key objectives based around these policy principles and the Companies identified significant environmental aspects with quantifiable delivery targets supported by focussed programmes to deliver them. The Directors will review this policy annually and ensure it is made available to all staff.

Sudlows operates an Integrated Management System that has gained BS EN ISO 14001:2015 certification in relation to:

- Design, construction, commissioning and facilities management of data centres and critical infrastructures
- Provision and installation of voice and data cabling, AV, Security & door access control, wi-fi, networks and associated equipment
- Electrical installation
