

Environmental Management System

Environmental Policy Statement

Sudlows are committed to ensuring sound environmental management practices, continuous improvement programmes and the reporting of our direct and indirect environmental impacts; marking our contribution to improving the environment in which we live and work.

In support of this the Company will:

- Establish and maintain an appropriate environmental management system which conforms to the requirements of the ISO 14001 standards and provides a framework for setting and reviewing our environmental control measures and targets and objectives.
- Comply with all relevant legislation, standards and codes of practice and with other requirements to which the Company subscribes which relate to our environmental aspects.
- Provide services in such a way to limit or avoid adverse impacts on the environment
- Strive to continually improve environmental performance
- Ensure that environmental management is an integral function of the business
- Commit to the prevention of pollution, emissions and waste generated by our business activities and from suppliers.
- Implement energy efficient measures across our company offices/sites
- Drive the management of waste away from disposal and towards recovery and recycling
- Protect the environment by preventing pollution, supporting biodiversity, promoting the sustainable use of resources and considering the effects of climate change within our Environmental Management System and business decision-making.
- Ensure sufficient resources are available to implement sound environmental management practices
- Provide appropriate information, instruction and training for all employees and any person working for or on behalf of the company in environmental management and awareness
- Ensure that this environmental policy is made available to all persons working for, or on behalf of Sudlows and any other interested parties on request.

This policy provides the framework for establishing, monitoring and reviewing measurable environmental objectives that support the organisation's strategic direction and reflect its significant environmental aspects, risks and opportunities. Sudlows is committed to protecting the environment, including the prevention of pollution, the sustainable use of resources, compliance with applicable legal and other requirements, and the continual improvement of the Environmental Management System to enhance environmental performance. Environmental objectives, performance and the continuing suitability of this policy will be reviewed through the Management Review process to ensure the Environmental Management System remains effective and continues to support the business.

Sudlows operates an Integrated Management System that has gained BS EN ISO 14001:2015 certification in relation to:

- Design, construction, commissioning and facilities management of data centres and critical infrastructures
- Provision and installation of voice and data cabling, AV, Security & door access control, wi-fi, networks and associated equipment
- Electrical installation
